HAMILTON INSTITUTE.

Dr. Clark's Baccalaureate.

HAMILTON INSTITUTE, May 24, 1881. Editor News: The sermon of Dr. Clark at Hamilton Institute upon last Sabbath was a model

of literary genius-deep in thought, lof-ty in expression, and full of the beauty and power of gospel truth.

His text was the 7th verse of XXXII. chapter of the book of Job, "I said days

should teach wisdom." His preliminary remarks were made in the most happy manner, by no means destitute of wit and pleasantry. His introduction was fine. The speaker said it was not his desire to be remembered by any of the young on account of oratorical brilliancy; that he was not speaking for that purpose, but it would delight him in years to come, should he live, to meet with some young lady or gentleman whom he might now be addressing, that would say to him, "Sir, the sermon which you preached at Hamilton Institute on the 22nd day of May 1881, was the means of leading me into the way of Godliness, wisdom and truth. The Dr. treated his subject in a masterly manner, making many remarks to the young, which seemed to us like "apples remarks concerning the great roll call of the future will ever forget them to their

dying day.

Bristol is certainly favored by having such a minister as Dr. Clark residing in her midst, and we sincerely hope that he and his most intelligent and amiable wife will visit us again at no distant day. A HEARER.

If polygamy had been right, they would each have taken a dozen, and so a much larger number would have been saved from drowning. The men and women in each generation and in all countries since the world stood have been about equal, or in cases of alight exceptions, men have been in the majority. No surplus of womanhood. Does that look as if the Creator of the race favors polygamy ?-The Bible is not more antagonistic to theft and blasphemy and murder than it is to polygamy. Yes, in proportion as civilization is in high advance, and in proportion as general good morals prevail, plurality of wives is discountenanced. Where polygamy exists, there may be a house, a large house, a splendid house, but no home. peace and prosperity in England would there be if four or five or twenty queen attempted with Victoria to occupy the same throne or live in Windsor Castle? I like the ring of that world ly merchant's manifness, who, when some one called on him soliciting aid for a missionary society, said: "I don't see the importance of that institution myself, and therefore must decline subscribing; but you may call on my wife; perhaps she will take a different view of the subject, and, if so, we will act ac-cording to her pleasure." Again, all those entertainments are the fees of the domestic relation which take from their families a majority of evenings. I am not ready to make in discriminate condemnation of club jouses. I believe that many of them mye their uses. France declared by law that people might unmarry as 000 divorces took place, and in one year 48,000 children were sent to the founding hospitals. When the law lets down the bars, all the cattle of moral beastliness break into the garden of home. In the prosperous days of Rome, there was only one divorce recorded in 500 years, She changed her laws, and then the delnge. Divorce is too easy in this country. The town of Lacrosse, Wisconsin, had seventy-four cases of divorce suit in one year. Philadelphia had 282 suits for divorce in one year. Divorce cases is New York have increased five per cent To get rid of your obligation you have only to absent yourself a short time in Illinois or Indiana. If murriage be civil contract merely, then all this is right and you may part with a confugal companion as you do with a store, or a farm, or a horse. If it be a divine union, then let those legislators or Judges of courts who have to do with these matters beware that on no grounds, except those announced by the God of Heaven, this relation be unlocked. "Whom God hath joined together let no man put asunder," When the people of this land are taught that marriage is a divine contract from which their names will not be erased except on the marble slab of the sepulcre, more deliberation and common sense and prayer will be carl, or risking their hearts in a philopena, or marrying just for fun, they will realize that between cradle and grave there is no place so tremendous as the marriage altar. And while before it the pair are joining hands in betrothal, standing between them all unseen is cither the white winged angel of blessing or the horned and hoofed and fired

mostril of despair. Again, I count corrupt literature as the foe of the marriage relation-the slushy books and pamphlets that teli how impossible men were married to impossible women and got into impossible difficulties with impossible conse quenees. The fact is that some of our young married people, through such literature, get so filled with sentimental and false ideas about this plain, serious and old-fashioned institution of marriage, that they are unfitted for the humbl duties of every day life. Better, when you go home to-day, gather up all the French and infernal stuff and fling it in-to the kitchen grate, otherwise it will Now I want to make you enemies of every excellent springs, and the buildings erything that antagonizes the marriage relation. Their bristian names were old-fashioned, like themselves-David the one, Catherine the other. Legal contract, of course out most of all the heart married them. They lived to celebrate their crystal wedling, their silver wedding, their golden wedding and nine years beside. Over three children's graves they had wept, but through all struggles of life they kept the Christian faith. They lived for God, for each other, for their children and for everybody but themselves .-Their hair whitened, and their steps grew shorter, and their voices trembled in the church psalm, though once they had led in the village choir. The one leaned beavily on the staff which I have in my house, but heavier on the arm of that God who had never falled him-These two married ones were well matawake to all the stirring questions of the cd. What was the joy of one- was the day, they would make their homes a joy of the other; what was the sorrow of one, the sorrow of the other. At last in departure did the Lord give her .-Though a deeply sympathetic man, never saw my father cry but once, and that was on the day of mother's burial. You see, they had been together fifty nine years. In her last moments moth er said to my father: "Father, would People get reckless about entering this not be pleasant if we could both go together?" But the three years soon pass ad away and they were remarried. Their children are gradually joining them, and soon we will all be there. But that vis they please.
